NuWaves manufactures complex custom cable assemblies for use in high reliability aerospace, dense, medical, and industrial systems.

We build a wide variety of cable assemblies, module to module power distribution cables, water proof cables, multi data interface communication and power cables, and EMI cables. We provide the end-user with defect free cables for peace of mind.

Applications

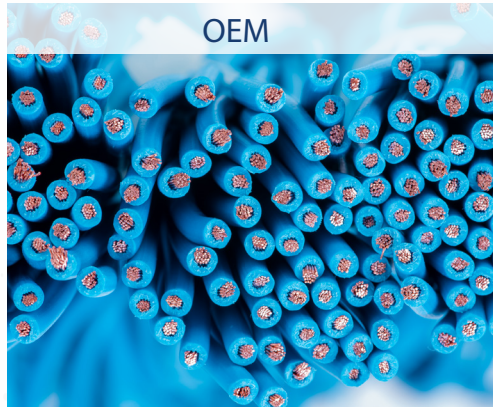

Military and Defense

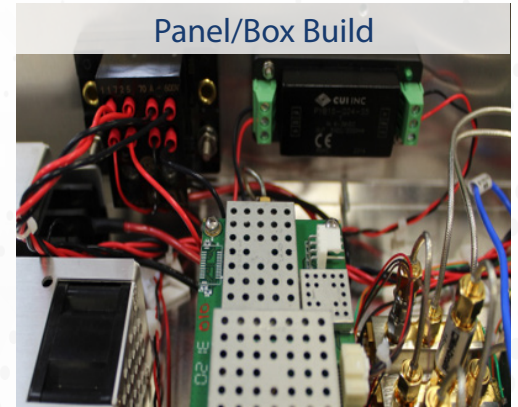

Non-Invasive Medical

OEM

Panel/Box Build

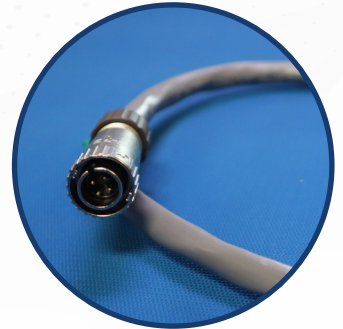

For two decades now, NuWaves RF Solutions has been building a reputation of excellence in design with our clients from concept to production for various cable types.

Featured Cable Development Types

Module-to-Module Power
Distribution Cable

Waterproof Shield (IP67 &
IP68)

Multi-Data Interface
Communication & Power

EMI Cable

Module-to-Module
Communication/Data Cable

Our Commitment to Quality

NuWaves Quality Management System is compliant to additional standards and follows further procedures including:

AS9100:2016 Rev D Certified

- Root Cause Failure Analysis
- DFAR Compliant
- All Operators are IPC/WHMA-A-620 Certified
- Traceability and Component Counterfeit Prevention Plan
- Climate, ESD, FOD Controlled Environment
- ITAR Compliant
