

**NUWAVES ENGINEERING SELECTED FOR  
NAVY SBIR PHASE I AWARD FOR INTERCOM**

Middletown, Ohio, April 27, 2018 – NuWaves Engineering, a veteran-owned small business providing advanced radio frequency (RF) and microwave solutions, announced today that the company has been selected for a Small Business Innovative Research (SBIR) Phase I award for the **INnovative TowEd aRray Cable mOdeM (INTERCOM)**.

The 6-month Phase I project will involve research and development activities needed to set the design requirements for a miniature high-bandwidth communications module that will be fully developed and delivered to the U.S. Navy during Phase II.

“NuWaves looks forward to working with the Navy to advance the state of the art in towed array capabilities with the INTERCOM program,” said Jeff Wells, President and CEO of NuWaves Engineering. “Our team is excited to deliver an innovative and high-performance solution in support of the Warfighter.”

**About NuWaves Engineering**

NuWaves Engineering is a premier supplier of RF and Microwave solutions for Department of Defense (DoD), government, and industrial customers. An RF engineering powerhouse, NuWaves offers a broad range of design and engineering services related to the development and sustainment of key communications, telemetry and electronic warfare systems, as well as a complete line of commercially available RF products. NuWaves’ products include wideband frequency converters, high-efficiency and miniature solid-state power amplifiers and bidirectional amplifiers, high intercept low noise amplifiers and miniature RF filters. NuWaves Engineering...Trusted RF Solutions™.
