The vendor is responsible for providing material certifications indicating the metallurgy of the raw stock used in fabricating finished items and the country of origin for such material.

When requested by NuWaves, the Vendor shall provide all relevant OCM/OEM documentation that authenticates the traceability of the affected items to the applicable OCM/OEM.
- D. Vendor shall establish and maintain an acceptable counterfeit material detection and avoidance system. Vendor shall also quarantine any counterfeit material and make said material available for investigation by appropriate government authorities. Any suspected counterfeit material shall not be returned to the supply chain.

To the extent any such provisions conflict with this Article, this Article prevails.

If any counterfeit materials are delivered or incorporated in the goods under this Order, Vendor shall, at its expense, promptly replace such counterfeit material with material conforming to the requirements of the Purchase Order. Notwithstanding any other provisions in this Order, the Vendor shall be liable for all costs relating to or associated with such counterfeit material including, without limitation, NuWaves’ costs of removing any counterfeit material, of installing replacement material and of any testing necessitated by the reinstallation of material after the counterfeit materials have been replaced. The remedies contained in this Article are in addition to any remedies available to NuWaves at law, in equity or under any other provision of this Order.

- a. This Order, including any attachments or exhibits hereto, contains information which is subject to the International Traffic in Arms Regulations (ITAR) or Export Administration Regulations (EAR) which may not be released to foreign concerns or foreign persons either inside or outside the United States without first obtaining the proper export authority. Vendor shall obtain an export license pursuant to the requirements set forth herein for any items that Vendor either manufactures or subcontracts outside the U.S or before allowing access to any technical data by a foreign person in the United States. If Vendor is a "Foreign Person" (as defined by the International Traffic in Arms Regulations [ITAR] reference 22 CFR Subchapter M) the Vendor shall, upon request of NuWaves' Procurement Agent and without additional cost, provide such information as may be necessary to support NuWaves' application for export license(s) covering any items ordered from Vendor hereunder.
- b. This Order contains defense related technical data. NuWaves has obtained, or will obtain, the approval of the U.S. Government to furnish to Vendor the data, and any other items hereunder requiring such approval, which are necessary for Vendor to perform this Contract. U.S Government approval is based upon the following ITAR requirements with which Vendor agrees to comply:
 - a. Vendor shall use the technical data furnished by Buyer only in the manufacture of defense articles in accordance with this Contract.
 - b. Vendor shall not disclose or provide technical data furnished by Buyer to any person except authorized U.S. citizen, protected person, permanent resident alien (immigrant alien). If Vendor is a "Foreign Person," it may also disclose or provide technical data furnished by Buyer to its employees who are citizens of the same country and qualified subcontractors in the same country which require the data in performance of the orders.
 - c. Vendor shall not disclose or provide technical data furnished by NuWaves to any foreign person either in the U.S. or abroad unless obtaining prior authorization directly from the U.S. Department of State Office of Defense Trade Controls (ODTC). ITAR defines a "foreign person" as any person who is not a U.S. citizen, permanent resident alien, or a protected individual as defined by 8 USC 1324B(a)(3). Foreign person also means a foreign corporation (corporation not incorporated in the U.S.), foreign government, and any agency or subdivision of foreign governments (i.e. diplomatic mission).
 - d. Vendor shall not acquire any rights in the data furnished by NuWaves except to use it in the performance of this Contract. Vendor also shall not convey to its qualified subcontractors any greater rights in the data than Vendor has. Vendor's qualified subcontractors shall only have the right to use the data as required in performance of their subcontracts.
 - e. Vendor shall deliver the defense articles manufactured in accordance with this Contract only to NuWaves or to the U.S. Government.
 - f. Upon completion or termination of this Contract, Vendor shall destroy or return to NuWaves all technical data furnished to Vendor by NuWaves pursuant to this Contract. At Buyer's election, NuWaves may direct Vendor to return or destroy the data and may require Vendor to certify in writing that Vendor has complied.

ARTICLE 43: RECIPROCAL WAIVER OF CLAIMS – QUALIFIED ANTI-TERRORISM TECHNOLOGY

This Contract may involve manufacture, sale, use, or operation of qualified anti-terrorism technologies. As such, pursuant to 6 U.S.C. §443(b) of the SAFETY Act and 6 C.F.R. §25.5(e), you shall be responsible for losses, including business interruption losses, that you sustain (and for losses that your employees sustain) resulting from an activity resulting from an act of terrorism when the qualified anti-terrorism technologies have been deployed in defense against or response to or recovery from such act of terrorism.

43.2

Qualified anti-terrorism technology," "act of terrorism," and "loss" are defined in 6 U.S.C. §444.

43.3

Include the substance of this clause, including this paragraph (c), in all Contracts, purchase orders (PO), or Subcontracts or PO's with a contractor, subcontractor, supplier, vendor, customer, or contractor and subcontractor of a customer. In accordance with FAR 50.205-1 (Safety Act Considerations 2007), the U.S. Government is not a "customer" from which a contractor must request a reciprocal waiver of claims.

ARTICLE 44: PRIME CONTRACT CLAUSES

Because NuWaves primarily deals with government-funded contracts, several clauses (listed below) related to the Federal Acquisition Regulations (FAR) as well as the Defense FAR Supplement (DFARS) are hereby incorporated by reference for all orders issued by NuWaves. Vendor shall insert these provisions in lower-tier subcontracts either verbatim or by reference.
